Additional Questions

Do these targets feel challenging yet possible? If they do not feel possible, why is that?

What can your club do to reach these numbers? What do you need to stop, start, and continue doing?

Can your club go beyond these numbers to reach more women and girls through the Dream Programs? How many women and girls can you reach through these programs?

If your club did not participate in one of the programs last year, what can you do to start participating? What has prevented you from participating in the past? What can your club do to overcome those obstacles?

What will your club do differently this year and next year to reach these targets? Be specific and actionable! Example: do not say "try to reach more women," write exactly what your club will do to reach more women. "Ask local corporate group to sponsor two awards" and "Meet with community college financial aid office in August" are actionable!
