

Dream Programs and the UN Sustainable Development Goals

“Women’s economic empowerment is at the heart of the 2030 Agenda. We will not achieve the Sustainable Development Goals if there is no accelerated action to empower women economically. We know that women’s participation in all spheres of life, including in the economy, is essential to sustainable and durable peace and to the realization of human rights.”
UN Secretary-General António Guterres, March 2017

Accelerating economic empowerment for women and girls who have encountered obstacles – the focus of Soroptimist International of the America’s Dream Programs – is rooted in the agenda for women’s equality outlined by the United Nations. Central to this agenda is the Convention to End All Forms of Discrimination Against Women (1981), the Beijing Platform for Action (1995), and most recently, the Sustainable Development Goals (2016).

The 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development were adopted by world leaders in September 2015 at an historic UN Summit and officially came into force on January 1, 2016. With these new Goals that universally apply to all, countries will mobilize efforts to end all forms of poverty, fight inequalities and tackle climate change, while ensuring that no one is left behind.

Of the 17 goals and 169 targets, the Dream Programs directly support five goals and 12 targets. We share our progress on the targets with Soroptimist International so our support of the SDGs can be counted at the United Nations. Below are the SDGs and indicators with information about how the Dream Programs support the indicators.
